ADD SOME TEXTURE TO YOUR CREATIONS WITH CORDZ!

Make your very own masterpieces with Cordz, the brand new trend that will bring more texture and colour to your art than ever before!

Use the cord pieces to create eye-catching swirls, striking shapes and pretty pictures that are cool, colourful and 3D! The best thing is that you don't even need glue - the cord pieces stick to their own special canvases to form funky shapes that spring to life. All you need to add to the mix is a little imagination!

Each set contains a stylus, templates, backboards and a selection of different coloured cord and we've got 25 kits to give away, thanks to our friends at Flair!
