40 Winks Chair

October 26th, 2008

British designer [Benjamin Shine](#) has developed the 40 Winks chair.

Constructed from 25mm thick acrylic, 40 Winks aims to playfully demonstrate the relationship between 'chair' and 'man', whereby the chair's role as an object in which to sit, becomes visually interpreted through the literal and surreal form of a figure sitting, slumped back and relaxed.

40 Winks was launched during London Design Week at the British fashion house, Aquascutum on Regent Street, where it is currently being exhibited. Available as a limited-edition series in a range of colors, Benjamin is now looking to reproduce the chair for mass market with a suitable distributor following current interest and demand.

Thanks and success Benjamin! May your chair designs shine:-)
