## Tulle Portraits: Art by Benjamin Shine

© November 01, 2012    ♥ 3 likes

British artist Benjamin Shine's portraits are a sight for sore eyes, but wait until you see them up close and you discover what they're made out of!

By carefully folding and pleating the material in strategic places, Shine manages to create the lights, shadows, and tones needed to build the portrait. And [the results](#) are a complete wonder to touch and behold!
